## **DETAILED ACTION**

# **Response to Amendment**

This Office Action is in response to Amendment filed on 7/14/2003.

Claims 1-31 have been canceled withdrawn form consideration.

Claims 30-31, 43-74 have been canceled withdrawn form consideration.

Claims 32, 40 and 42 have been amended.

Claims 32-42 are pending in the present application at the time of examination

#### Claim Rejections.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Application/Control Number: 10/039,517 Page 3

Art Unit: 2818

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 32- 39\_are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 9 of U.S. Patent No. 6410968. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one of ordinary skill in the art at the time of the invention was made to form a barrier formed on electrode from a silicon source previously deposited over at least a portion of the semiconductor device, having been reacted with a reactive agent by introducing a silicon-containing barrier layer containing no metal formed over the metal layer by depositing a silicon-containing material over the metal layer and causing silicon atoms of the silicon-containing material to react with a reactant in order to define a semiconductor device.

Art Unit: 2818

Reasons for Indication of Allowable Subject Matter.

Claims 40-42 would be allowed. The following is a statement of reason for the indication of allowable subject matter:

Claims 40-42 are considered allowable since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Huang et al. (6291288) and The Background of the Invention, taken individually or in combination, do not teach the claimed invention having (Regarding claim 40) a second semiconductor forming over the barrier layer and (Regarding claim 42) silicon-containing material form silazane source.

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

When responding to the office action, Applicants' are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung A. Le whose telephone number is 703-306-5797. The examiner can normally be reached on Monday-Friday 8:00am-5: 30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 703-308-4910. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-7722 for regular communications and (703) 308-7722 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
